(B) In the event of a disagreement concerning the estimate of the proper amount of the bond, the ~~department~~ **division** may retain independent expertise as is necessary to establish the amount of the bond.

(4) The Arkansas Pollution Control and Ecology Commission shall promulgate regulations concerning bonds and substituted security which will attempt to ensure that small operators are not precluded from development of mineral resources as a result of high bond amounts, but which will provide reasonable security.

(i) No operator shall be eligible to receive a new or renewed permit who has had a permit revoked, bond forfeited, or who has outstanding substantial unmitigated violations of this subchapter, including failure to reclaim, unless the department **division** finds upon review a demonstrable change of circumstances justifying an exception to these prohibitions.

(j) Liability under the bond or substituted security shall be for the duration of the open-cut mining operation and for that period required to establish successful reclamation of the affected area.

(k) Nothing contained herein shall be deemed to preclude the right of the department **division** to recover the actual cost of reclamation over and above the amount of bond.
